Experienced software engineer and leader. I love building teams and developing engineers, making technical decisions, and creating world-class software.

EXPERIENCE

Engineering Manager - Podium

June 2019 - Present

As an Engineering Manager I lead a cross-functional team of 9 engineers, a designer, and product manager. My team is responsible for the Inbox product within Podium which works as the central hub for all other products.

Lead Instructor & Senior Developer - DevMountain

July 2017 - June 2019

As a Lead Instructor, my responsibilities included teaching students, curating cirrciculum and managing 10-20 mentors and instructors. Developed several new course offerings including online, after hours and Basecamp, all of which led to more students than ever having the opportunity to learn to code.

Front End Developer and Designer - Fashionphile

May 2016 - July 2017

First full time front end developer and designer for Fashionphile, a high-end hand bag consignment store. Set standards for coding patterns and technology and implemented an email campaign that led to highest non-holiday revenue quarter for company up to that point.

Software Engineer - 1-800 CONTACTS

Septemer 2015 - May 2016

Worked on a team of 10+ engineers to create an intuitive solution to ordering contacts online. Worked directly with stakeholders and executives to determine the success of the project. Also worked with third party clients to create a tailored contact ordering solution.

SKILLS

Throughout my career I have had the opportunity to learn many different technologies and leadership processes. I firmly believe that you can achieve more as we than you can as me. Some of my skills include:

Leadership	Engineering
• Team Building	• HTML & CSS
 Code Review 	JavaScript
 Career Growth 	• React
